Trading Record on OPEM's Day-Ahead Market (DAM) operated by OPEM

As interest in trading on the Day-Ahead Market continues to grow, a new all-time record in traded electricity was reached for the delivery day of 22 August 2026, with a total volume of 4,487.576 MWh, representing approximately 40% of the Republic of Moldova's electricity consumption. The energy was traded at an average price of 2,427.08 MDL/MWh (EUR 120/MWh).

OPEM – Energy Market Operator M S.R.L. is a subsidiary of OPCOM S.A., the Electricity and Natural Gas Market Operator in Romania, operating in the Republic of Moldova.

About OPEM

OPEM *is the Power Market Operator M Ltd. of Republic of Moldova. OPEM was designated on 21 February 2024 by the Govern of the Republic of Moldova as market operator of the electricity market in the Republic of Moldova, an important step in the process of creating and operating a transparent, efficient and sustainable electricity market, according to the European standards and best practices. The National Agency for Energy Regulation of the Republic of Moldova granted OPEM, on 19 March 2024, the License operating the electricity market. Later in 2025, OPEM was designated by ANRE as the Nominated Electricity Market Operator (NEMO) with the mission of implementing the international coupling of the Moldavian day-ahead electricity market and the intraday electricity market. In December 2025, OPEM launched the commercial operation of short-term markets, organized in accordance with European standards, in compliance with the requirements set forth in the applicable regulatory framework.*

OPEM is a subsidiary of the Romanian Electricity and Gas Market Operator "OPCOM" SA of Romania, having the headquarters in the Republic of Moldova.

About OPCOM

OPCOM *is the Romanian Electricity and Gas Market Operator. Since 2000, OPCOM has been committed to strengthen a marketplace where energy and environmental certificates are traded in conditions of transparency and integrity. Today, the trading portfolio offered by OPCOM ranges from electricity products to gas products, as well as green certificates. More than 800 companies are using the products available for trading on short-term electricity, gas, and green certificates markets as well as on term markets for electricity, gas, and green certificates bilateral contracts. In addition to this role, OPCOM is responsible for settlement of the transactions concluded on short-term energy markets and also acts as Registered Reporting Mechanism under REMIT managing almost 400 reporting agreements on its electricity and gas markets. OPCOM was designated by the Romanian Energy Regulatory Authority as Nominated Electricity Market Operator (NEMO) in accordance with Regulation (EU) 2015/1222 for fulfilling tasks related to the coupling of the day-ahead and intraday markets. In 2024, OPCOM was appointed as CfD counterparty under the Contracts for Difference support scheme for low carbon technologies.*

OPCOM applies the Quality Management System complying with ISO 9001:2015, respectively the Information Security Management System complying with ISO/IEC 27001:2022, both systems being certified by LRQA.
