

PRESS RELEASE January 10th, 2008

Maximum interest for the spot trading

(Bucharest, 10.01.2008) From the very beginning of 2008, transactions on centralized markets had a strong start, the new year being marked by CMBC trading offers and by the newly record of interest regarding the trading on DAM: 59 participants have submitted buy/sell offers on both 8th and 9th of January.

In these conditions, high value volumes have been registered, the maximum being reached on January 9th, with a value of 1,357,421 euro – the maximum value since the spot market launching on June 30th, 2005.

After this historical maximum, considering an ad hoc hierarchy of the maximum values, the trading values for January 11th (1,333,256 euro) and for January 10th (1,338,141 euro) are situated on the second and on the third position, respectively.
