

PRESS RELEASE

(Bucharest, May 20th, 2009)

For the delivery day May 21st, OPCOM announces high values of performance indicators for Day Ahead Market

The interest expressed by a number of 60 participants from the 92 registered to the market, raises the volume of electricity transactions with delivery on 21st of May 2009 to an hourly average of 950 MWh/h, corresponding to a market share of about 17% of the forecast consumption, the second value in a hierarchy of shares held by daily DAM transactions in consumption (the record of about 19% of consumption was established in July 2007).
