

Member tests for BGRO Market Coupling

The purpose of the member tests is to simulate the production conditions, thus allowing market participants to become well acquainted/experience, as appropriate, with the procedures/processes of market coupling and the timings applicable with the launch of the BGRO MC project, including the fallback procedures.

The testing environments of NEMOs' local trading systems and TSO systems (including the JAO system), which will be configured according to the production conditions, will be used during the member tests.

According to the master test plan, the member tests are to be held on 20.10.2021 and the testing session will start at 13:00 CET, shortly after the SDAC¹ market coupling session ends.

20.10.2021	Partial decoupling, including Shadow Auction run by JAO (CZC-related reasons)
------------	---

OPCOM will register the participants who are willing to join the test, for which purpose each participant will express the intention to participate by sending to OPCOM, until 19.10.2021, 12.00 CET, at pzu@opcom.ro, the following contact details:

Market Participant (MP) name	Registered with JAO (DA/NU)	Name of the contact person (representative of the MP attending the test)	Email	Phone Number
------------------------------	-----------------------------	--	-------	--------------

JAO will organize the Shadow Auction on the RO-BG border. For this purpose, OPCOM will register the MP based on the previously requested data, in order to ensure they have the necessary rights to participate in the shadow auctions in the test system administered by JAO.

Details of the test scenario

Partial decoupling (for reasons related to the CZC)				
Process	Description	System	Simulation time	Production time
1	Send message UMM_02: Risk of partial decoupling for one or more interconnections	Email	14:15	11:15
2	JAO informs market participants about the possibility of shadow auction and the deadline for submitting bids for shadow auction	Email	14:15	11:15
3	JAO runs Shadow Auction	e-CAT	14:25	11:25
4	Send the message UMM_03: One or more decoupled interconnections	Email	14:30	11:30
5	Publication of shadow auction results by JAO	Site-ul web	starting at 2:35 p.m.	starting at 11:35 a.m.
6	Gate closure time (deadline for the offers of submission)	Local trading system	15:00	12:00
8	Publication of market results	Local trading system	15:57	12:57

Note: For the submission of offers into the testing environment of OPCOM local trading system, the market participants will use the USB ActivCard provided by OPCOM (the same one used to access the production environment) will be used by the DAM Participant and the URL of the DAM Test System will be accessed at: <https://damtest.opcom.ro/dam/dam-participant>; if the access is not enabled, please notify us as soon as

¹ Disclaimer: This schedule may be amended if this is required by the SDAC operational regime, with market participants being informed of any change in an operational manner.

possible at it_service@opcom.ro in order to allow OPCOM to update the testing DB in order to ensure the necessary access to the requesting participant.

The correct connection to the application is confirmed by the version of the test interface which will be: DAM TEST SIDE 5.1.1 # 53290.
